

WALLING

STEEL WALLS WITH STYLE

100% AUSTRALIAN STEEL

FLEXIBILITY IN ALL FORMS

**IT MAY SEEM COUNTERINTUITIVE,
BUT FEW WALLING SOLUTIONS
OFFER THE UNIQUE FLEXIBILITY
OF STEEL WALLING.**

And Lysaght has a creative range of steel walling with profiles that can accommodate and compliment any architectural style or environment, whether residential or commercial. Indeed, there's a LYSAGHT® walling profile suitable for any and every building application.

THE BEST AUSTRALIAN STEEL

**AT LYSAGHT, WE USE ONLY THE BEST
100% AUSTRALIAN STEEL FOR 100%
PEACE OF MIND.**

All Lysaght products are fashioned from industry-leading BlueScope brands such as COLORBOND® and ZINCALUME®. And, of course, all our products are extensively performance tested, backed with the strength of the BlueScope warranty. You can rely on Lysaght walling products with complete confidence.

THE STANDARD IN WALLING.

LYSAGHT® steel walling is designed to Australian Standards and is also fully engineered and tested in our very own NATA accredited facility. That means you can be confident that your new LYSAGHT® steel walling will be as beautiful as it is strong for many, many years to come.

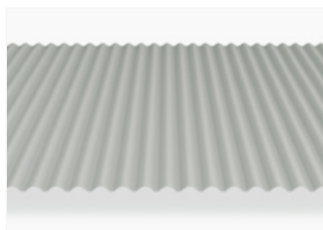

OUR RANGE PROFILED

MINI ORB[®]

A MINI-CORRUGATED WALL CLADDING SUITABLE FOR USE ON INTERIOR AND EXTERIOR APPLICATIONS.

Its subtle profile provides the perfect complement to other LYSAGHT[®] roofing and walling claddings, and can lend a contrasting surface as an accent feature.

- Perfect for decorative walls and ceilings.
- Suitable for flat and curved installations.
- Corrugations can run vertically or horizontally.
- Effective cover width: 820mm (807mm in WA).

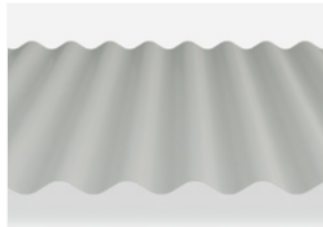

WALLCLAD®

A LIGHTWEIGHT AND VERSATILE CORRUGATED WALL CLADDING.

Ideal for commercial, industrial and residential buildings no matter what the architectural style, from traditional to contemporary.

- Complements the CUSTOM ORB® corrugated roofing profile.
- Lightweight and easy to install.
- Corrugations can run vertically or horizontally.
- Effective cover width: 762mm.

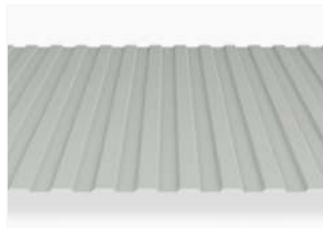

PANELRIB®

A SUBTLE FLUTED PROFILE PERFECTLY SUITED TO CREATING NEAR FLAT SURFACES.

Its longitudinal flutes provide rigidity along the length of the sheet while retaining full flexibility across the width, which means that it can be used flat or curved.

- Suitable for use as eaves on residential buildings.
- Flutes can run vertically or horizontally.
- Effective cover width: 850mm.

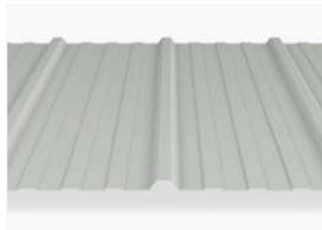

MULTICLAD®

AN ATTRACTIVE TRAPEZOIDAL MULTI-RIBBED PROFILE.

Generally used where an inexpensive, quick-to-install cladding is desirable. So it's ideal for garages, carports and sheds; or for commercial and industrial projects such as warehouses, showrooms and retail premises.

- Ribs can run vertically or horizontally.
- Lightweight and quick to install.
- Effective cover width: 840mm.

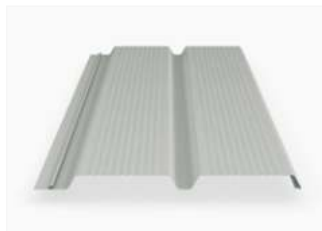

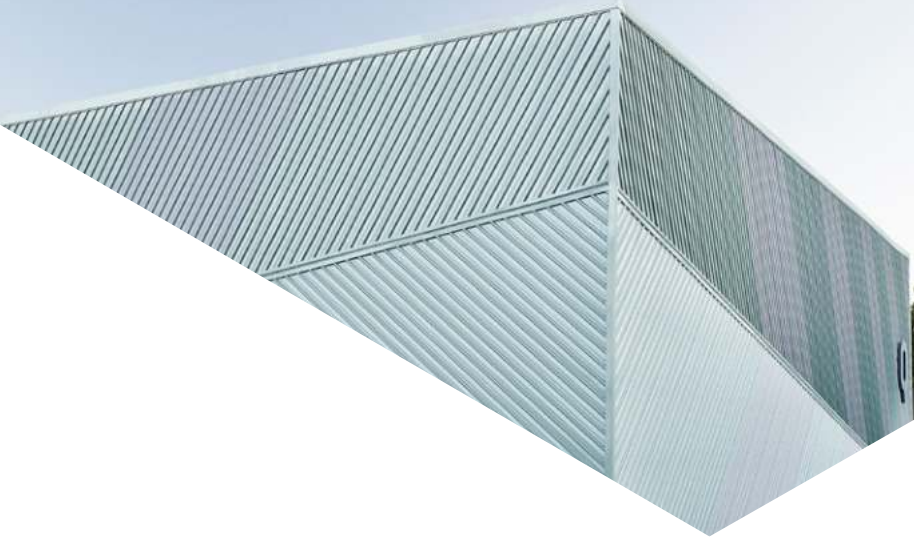

EASYCLAD®

AN ATTRACTIVE, STRONG WALL CLADDING SOLUTION.

EASYCLAD® offers high-impact resistance for both interior and exterior applications. As the name says, it's also simple to install with clips used for fixing the start of the first sheet and subsequent sheets thereafter being nailed or screwed.

- Sheets can run vertically or horizontally.
- Effective cover width: 300mm.

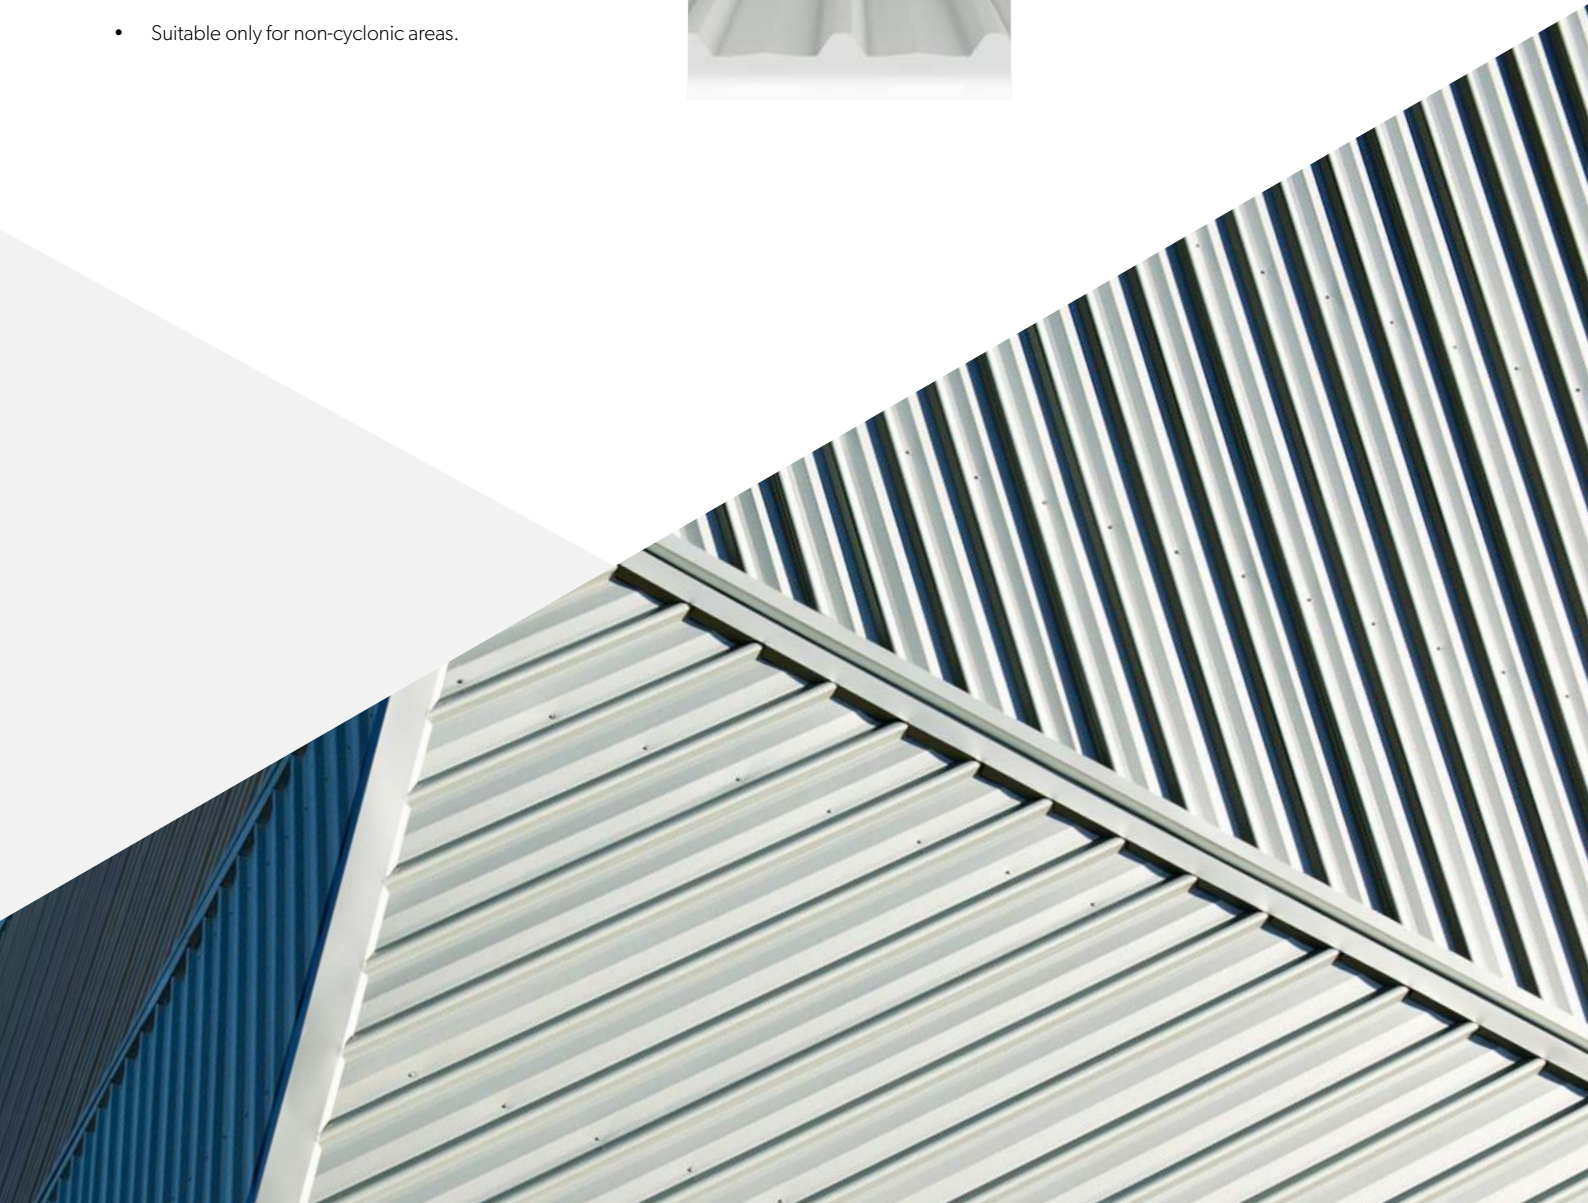

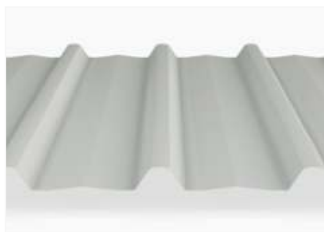

TRIMWALL®

AN ATTRACTIVE AND VERSATILE WALLING PROFILE.

TRIMWALL® is the one to consider for shed and garage walling applications. It also complements the TRIMDEK® roofing profile and is lightweight and easy to install.

- Effective cover width: 762mm.
- Suitable only for non-cyclonic areas.

EVEN MORE PROFILES

MORE STRENGTH AND BEAUTY.

The LYSAGHT® walling range provides an extensive selection of profiles and options to suit any building project whether residential, commercial or industrial. Some profiles are specifically designed for special purposes or regions to ensure the walling you choose functions as beautifully as it looks, no matter what the conditions. In addition, the LYSAGHT® range of roofing profiles are also suitable for use as walling, offering you an even more extensive choice for your next project.

LONGLINE 305®

Bold ribs and wide pans for clean lines. Supreme watertightness.

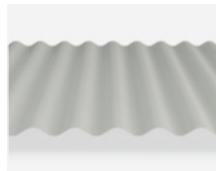

- Effective cover width: 305mm.

CUSTOM ORB®

The original Australian. Lightweight and strong.

- Effective cover width: 762mm.

SPANDEK®

Square-corrugated roofing and walling. High water carrying capacity.

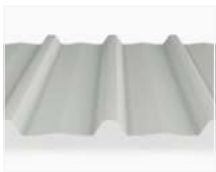

- Effective cover width: 700mm.

TRIMDEK®

Bold trapezoidal ribs and subtle fluting in the pans.

- Effective cover width: 762mm.

CUSTOM ORB ACCENT® 21

Mid-depth corrugated roof and wall cladding, resistant to damage.

- Effective cover width: 762mm.

CUSTOM ORB ACCENT® 35

Corrugations 120% deeper and 50% wider.

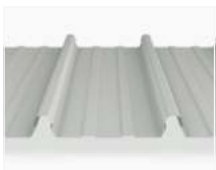

- Effective cover width: 724mm.

KLIP-LOK CLASSIC® 700

Strong rib and longitudinal fluting. Concealed fixing.

- Effective cover width: 700mm.

KLIP-LOK 700 HI-STRENGTH®

An advanced concealed fix roof cladding with pronounced ribs.

- Effective cover width: 700mm.
